

Collimare

ADVANTAGES and FEATURES

- **5 Year Warranty** Including the LED Light Source.
- **5 Minute Install.** External Light Field and Laser Adjustments. **Never take the housing off!**
- Advanced Light Field Control Inputs:
 - Standard 3 Way Control of the LED and Crosshair Lasers from the front panel lamp button:
 - LED Light Field and Lasers (press and release)
 - LED Light Field only (press and hold for one second and release)
 - Lasers only (press and hold till the lasers come on and release)
 - Light Field External Table Lock Input Control. When the table locks are released the Light Field and Lasers will come on and self-time out or can be turned off by the collimator light field button.
 - Light Field External Remote Switch. When enabled this remote switch will mimic the functions of the collimator light field button.
- Field programmable default Light Field on time from 15 seconds to a full 2 minutes from the front panel without removing the covers.
- State of the art LED light source that does not require a fan to operate.
- Standard Features: Cross Hair Lasers, Tube Mount with Detent Rotation, 25' Power Cable, Hard Manual, Filter Kit and Alignment Sheet, Tube Mount Mounting Hardware and Spacers.
- Veterinary units are fully shielded and rated at 150kVp.
- Made in the USA.
- Direct and immediate field customer support.
- Same day repair parts shipping (before 3:00PM MST).
- Highly regarded in the field by end users, dealers, and OEMs.
- With over 11,000 units in the field Collimare has established itself as the most reliable collimator in the industry (All Collimare units are burned in and life cycled at a 50% duty cycle for a minimum of 8 hours).
